Representative-Elect Cindy Burkett: Ken Paxton is my choice for Speaker

Austin, TX - "With the election of a near super majority of Republicans to the Texas House Representatives, voters are calling for conservative leadership in Austin. I believe that Representative Ken Paxton is the best choice to lead the Texas House during this critical time, said State Representative-Elect Cindy Burkett in announcing her support for State Representative Ken Paxton for Speaker of the Texas House.

Representative-Elect Burkett is a small business owner from Mesquite who defeated Democrat Robert Miklos in the November 2nd General Election.

Representative-Elect Burkett states, "With the election of a near super majority of Republicans to the Texas House Representatives, voters are calling for conservative leadership in Austin. I believe that Representative Ken Paxton is the best choice to lead the Texas House during this critical time.

"My call for limited government, economic recovery, protection of innocent life, and increased border security resonated with voters during my campaign. My first order of business as a legislator will be to vote for a Speaker who I believe can best advance these principles.

"Since 2003, Representative Ken Paxton has proven himself to be a steadfast conservative, championing legislation to reduce the growth of our state government, to decrease the tax burden on Texas families and small businesses, and to protect property rights and individual liberty.

"I am pleased to lend my support to Representative Ken Paxton, and I look forward to working with him to promote our values this coming legislative session," Burkett said.
